Women’s and Gender Studies Student Learning Outcomes for majors and minors:

1) Develop a broad understanding of the centrality of gender to all areas of social life, and the intersections of gender with race, ethnicity, class, sexuality, citizenship, ability, and more; develop a broad understanding of the global dimensions and practices of gendered power.

2) Identify the terminology and concepts central to the interdisciplinary field of gender studies.

3) Examine and interpret material using the theory and research methods of gender studies and apply these ideas to current social issues.

4) Present ideas concerning gender and women's studies in spoken and written form.
