

FUNDING OPPORTUNITIES FOR POLITICAL SCIENCE GRADUATE STUDENTS

There are many funding opportunities for Political Science Graduate Students within the department, the University, and from an even larger range of agencies and foundations. What follows is an effort to identify all of the opportunities within the department and SOME of the opportunities in the University and wider community. This is by no means a comprehensive list. The department encourages all grad students to seek funding opportunities from whatever sources that may be available; we encourage you to visit the Graduate School to look through their online database of funding opportunities. You should also feel free to talk with the Director of Graduate Studies to discuss ways to finance your graduate studies.

Deadlines for University and external grants change from year to year, and sometimes even during a year. Please use the deadlines below as guidelines. To ensure timely submission, check the relevant website for current deadlines and related information. Notices and reminders are often emailed through the PSgrad listserv.
