### Program Grants

The College of Arts and Sciences Program Grants offer competitive funding to support faculty initiatives in research and scholarship, to assist faculty and programs in making those endeavors visible both regionally and nationally, to attract and retain outstanding faculty, and to involve both undergraduate and graduate students in our instructional and research programs. Ideally, these grants should be for the academic year in which they are submitted or, in the case of spring submissions, may also be for the following academic year. These awards, generally in the range of $1,000 to $6,000, are meant to augment funding from other sources (both internal and external) for visible, distinctive projects. Awards are not intended to support individual research projects or to replace funding typically available from the usual granting agencies and foundations. Interdisciplinary initiatives are encouraged. Projects funded in the past include:

i. Conferences, workshops, symposia

ii. Visiting speakers series (rather than individual speakers)

iii. Special events linked to curriculum or program development

iv. Other significant research, teaching, or outreach activities may also receive funding.

- **Amount:**
  - Generally in the range of $1,000 to $6,000

- **Eligibility:**
  - Tenure-track and career faculty

- **Application:**
  - Online form and proposal. Deadline: Friday of the third week of each term: Fall, Winter, Spring

THE CENTER FOR LATINO/A AND LATIN AMERICAN STUDIES

2018 Seed Grant Competition for Faculty Collaborative Research Groups
Grants for faculty and community groups (support collaborative research, teaching, and community outreach projects that are interdisciplinary, link more than one UO unit together, and involve the wider Eugene-Springfield or Oregon community): amounts and number of awards vary, typically up to $5000 in grants awarded each year.

- **Amount:**
  - Up to $5,000
- **Eligibility:**
  - This grant is specifically intended to support research that fits within the CLLAS mission. Projects that include collaboration between UO units, involve the wider Eugene/Springfield, Oregon, or Latin American communities/organizations/institutions in the U.S or Latin America or propose other forms of community engagement are particularly welcome. In recognition of the fact that not all disciplines include collaborative models of research, such as fields within the humanities, CLLAS will consider projects that involve elements of community engagement. We are especially interested in projects that have the potential to put Latino/a and Latin American Studies into conversation with one another.
- **Application:**
  - Applications should include a cover letter, description of project, budget and grant request, and CV (or statement of qualifications) and may be submitted electronically or by hard copy.
